APEX™ Most Popular Weight Capacities

## HOW TO ORDER:

Please use the chart above to help you in choosing the correct part to order:

1. Find your balance number (ex. 26)
2. Choose the weight capacity needed (ex. 18 lbs)
3. Follow your balance number and weight capacity to the point where they intersect to find your spring gauge number. (ex. 4)
4. Please order using your Balance Number - Spring Gauge Number. (ex. 26-4)
